Closed Sundays

Like us on Facebook!!
Fairbury Public Library

Welcome to StoryWalk® at Fairbury City Park!

The Storywalk® combines physical activity with books to help build children's interest in reading while encouraging healthy activity for all! It begins on the southeast side of the Frontier Fun Park near the gravel parking lot. From there, follow the story by walking around the circle!

Special Summer Reading Story!

For tens of thousands of years, animals and plants fell into the natural trap of what we now call La Brea Tar Pits in Los Angeles, California. Millions of fossils, from hundreds of species, have been collected in this one unique site. Readers are guided into an entire ecosystem of plants and animals—stuck!

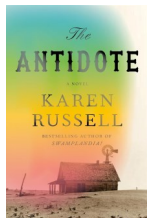

Monthly Book Club Discussion

Tues. & Wed. July 14,15

At 9:00 am

- *There will be snacks!

Citizen Science Kits

Check them out now from the library!

FIREFLY ATLAS

GOAL: TO GATHER SPECIES-SPECIFIC DATA ON FIREFLIES IN THE USA AND CANADA

The Firefly Atlas is a collaborative effort to better understand and conserve the diversity of fireflies in North America. Launched in 2022, the project aims to advance our collective understanding of firefly species' distributions, phenology, and habitat associations, as well as to identify threats to their populations.

OBSERVING POLLINATORS

Identify and count pollinators as they visit flowering plants.

WHY ARE POLLINATORS IMPORTANT?

Pollinators assist plants in their reproductive cycles, and they are critical to the world's agricultural food supply. In recent years, their populations have suffered across decades, especially among honey bee colonies.

HOW CAN YOU HELP?

You can gather observations of pollinators visiting any flowering plant. Make as many observations as you want while flowers are blooming. It's that easy! Your participation can help scientists understand pollinator health and keep our wildlife communities vibrant.
